KESTREL IQ

Capability Quad Chart

Decision Intelligence | Execution | Outcomes

Helping organisations discover opportunities, prioritise what matters, and execute with confidence.

1. Who We Are

Business clarity, decision intelligence and practical analytics

A specialist advisory consultancy built to turn fragmented information into confident action.

- Australian-owned, Queensland-based SME
- Founder-led, with cross-industry experience
- Expert network: engineering, analytics, data, performance and governance

Promise: clarity first, practical outcomes, measurable impact.

2. How We Help

Discover. Prioritise. Execute.

Structured frameworks move clients from current state to measurable improvement.

- Discover opportunities, gaps and maturity
- Prioritise investment and effort where value is highest
- Execute reporting, governance and performance improvements

Pathways: diagnostic, assessment, roadmap, advisory, delivery.

3. Core Capabilities

Analytics, governance, energy intelligence and climate readiness

Business-led insight combined with practical implementation support.

- Data maturity, governance and performance reporting
- Power BI, analytics and decision-support solutions
- Energy/building analytics and climate disclosure readiness

Focus: Climate readiness and energy analytics of buildings.

4. Frameworks & Proof

Repeatable IP backed by cross-industry outcomes

Our frameworks help clients see where they are, what matters and what to do next.

- Data Revenue Diagnostic™: rapid opportunity assessment
- CereArc™: maturity across clarity, ownership, integrity, flow and predictive readiness
- SPARC™: Smart Prioritisation And Revenue Clarity

Proof: government, utilities, infrastructure, financial services and buildings.
